

SUMMER 2026

# GLOBAL AI VENTURE STUDIO

## 4-week online program for Grades 7–9

A hands-on AI literacy and venture-building experience where students investigate a real-world problem, use AI tools to develop a prototype, create branding, and deliver an investor-style pitch.

### Why This Stands Out

- Built around safe, student-focused AI tools with guardrails for younger learners
- Fully online, flexible format with an estimated weekly commitment of 3–6 hours
- Delivered through a dedicated online learning platform designed for students
- Students build a real venture project across four stages: problem, prototype, brand, and pitch
- Top-ranked projects may advance to the Global Showcase for prizes and recognition
- Eligible students may receive half-semester elective credit through Elite Open School

### What Students Do

- Investigate a real problem
- Build a first prototype
- Develop brand and visuals
- Present a final pitch

### What Students Gain

- A completed project
- Practical AI experience
- Clearer solution thinking
- Stronger presentation skills

### Program Details

- Cohort 1: 6 Jul – 31 Jul
- Cohort 2: 3 Aug – 28 Aug
- Fully online, self-paced
- Solo or team • 1–4 students

### 4-Week Roadmap

#### Week 1: Define the problem

Choose a major issue area and frame a real problem worth solving.

#### Week 2: Build the prototype

Use AI-supported ideation and prototyping to create a first version.

#### Week 3: Craft the story

Develop branding, visuals, and a deck that makes the venture clear.

#### Week 4: Deliver the pitch

Refine the presentation and submit the final pitch for judging.

### Global Showcase Prizes

1st: \$3,000

2nd: \$1,500

3rd: \$500
